**The large visual aids** allow the presenter to visually show in a matter of moments what would take many hours to verbally explain. While it is not essential to use the large visual aids, it is highly recommended, as it is a distinguishing element of the courses. There are schools that have permanently put them on the wall of their Christian Studies classroom and churches who are displaying them as an opportunity to provoke discussion about the Bible's story.

**Select** from the size and medium options below to order a visual aid created for your space.

**Delivery** is made directly from our printer. We will contact you prior to finalising your order to confirm size and medium of your visual aid(s) and delivery charges.
